VEGETABLE AND FLOWERING PLANTS AND SEEDS - SPRING 1945

HARROLD'S PANSY GARDENS & GREENHOUSES

P. O. BOX 29 GRANTS PASS. OREGON.

PLEASE READ — EARLY ORDERING IS ADVISABLE

In this folder is offered a wide selection of vegetable and flowering plants with which to complete your spring gardening plans. We have our usual large supply as the season starts and in some cases it is possible for us to supplement our own stock from wholesale sources should there prove to be a shortage. It is not possible to do this on all items, however, and so we will fill all orders subject to availability as they are reached in the rotation of their arrival. For this reason it is suggested that early ordering will do much to assure your receiving your complete selection.

As with nearly every civilian enterprise, we have experienced an active demand for the material we supply. Also the supply of suiteable labor is limited and at certain rush periods is not sufficient to maintain pre-war promptness in shipping. Therefore ALL orders will be shipped in strict rotation of their arrival and will have individual and careful attention on that basis. Most of the time we have maintained shipping service within 2 to 6 days from receipt of order. As always it is our endeavor to supply good stock, well packed and shipped as promptly as conditions permit.

ORDERING BY MAIL

As in the past, our service is as near as your own mail box. We are the larg-mail order shipper of horticultural products in Southern Oorgon and Northern California and are equipped to serve you efficiently.

Prices In This List Are Prepaid

In the first three postal zones (300 miles.) Elsewhere by Express Collect

No mail order for less than \$2.50 accepted.

In former years we made a separate charge for packing and postage but with so many new customers overlooking this charge we have, this year, combined the shipping charges into the catalogue price of the merchandise. In order to do this we have had to set a minimum size on the orders that can be shipped at a figure which will allow a return to cover packing and transportation. Therefore PLEASE do not ask us to ship orders amounting to less than \$2.50. You pay one price and the material is delivered to your door.

QUANTITY LIMITS

We do not sell individual items which amount to less than 10c. That is if a dozen vegetable plants sell at 20c a half dozen is the smallest quantity that will be sold in that one item and variety. A great many flower items are offered in separate colors in which case never less than half a dozen of a color will be supplied and marked as to color. In any case where order does not conform to these conditions we will make the necessary changes to make it conform.

Be sure and make full remittance as no accounts or billing is possible and if insufficient funds are sent it will mean that items will be omitted to the value of the shortage. Any refund due you will be made promptly. See terms of sale at the end of this list

end of this list.

SERVICE AT THE NURSERY

As in the past come to the nursery and greenhouses for your gardening needs if you can. We shall be glad to serve you here at the Gardens as we have for the past 18 years. Prices are lower in some cases at the gardens.

Please Make Second Choice

Wherever possible when order is for plants of specific variety or color it will sometimes allow completion of your order if you give a second choice or two. Even though we grow an extensive line of stock in the more popular varieties it is never possible to completely gauge the call that will be made for each and there are always some shortages no matter how carefully we plan. Frequently similar stock in another slightly different kind will remain available and whenever this is the case and we have no other instructions we will use our best judgement and send the available substitute. IF THIS DOES NOT MEET YOUR APPROVEL PLEASE SAY SO WHEN ORDERING.

Our line of vegetable plants embraces the best varieties adaptable to this locality. We confine ourselves strictly to standard tested varieties-disregarding freak and renamed sorts so often offered by part time growers and mail order shippers.

Not Less Than 50 of an Item Supplied at the 100 rate

VARIETY Price per	doz.	100
BROCCOLI PLANTS—		
GREEN SPROUTING CALABRESE: The green winter Broccoli \$ ST. VALENTINE: White headed winter Cauliflower	.25 .25	\$1.50 1.50

Price per doz. 100 VARIETY SWEETPOTATO PLANTS -

These give excellent results in a wide variety of soil types. They produce well and have a fine flavor here.

CALIFORNIA JERSEY: The most universally successful variety. is deep yellow. Sweet and medium dry. PUERTO RICO: A moist fleshed dark yellow variety of the Yam type. Prefers warm sandy soil.

> 500 plants for \$7.50: 1.000 for \$14.00. Write for prices on larger quantities

TOMATOES-

HARROLD'S SPECIAL: Similar to Redhead but earlier and more productive. We are the originators of this variety and it is not surpassed for the home garden. Bears over a full season starting about ten days after Earliana. A really quality fruit. 20 120 .20 1.20 MARIGLOBE: Fine semi-early. Robust plant. Blight resistant. 20 1 20 YELLOW PONDEROSA: Large fruited yellow. Sub-acid. Very mild. YELLOW PEAR: Also Red Pear. Small preserving Tomatoes.20 1,20

In Harrold's Special and Mariglobe we can usually supply larger size plants at 35c a dozen; \$2.50 per 100.

Annual Flowering Plants

In spite of the fact that annuals must be planted each year usually and that they may require a little more care than hardy perennials, they are still the most dependable & colorful plants in any garden. Many annual varieties have a blooming season extending over a period of weeks; even months and it is to them that we must look for nearly all the summer and fall flowers. No garden can be completely colorful without the liberal use of annuals.

PLANTS OR SEEDS- We are in a position to supply either plants or seeds of practically all the varieties that are most useful. OUR PLANTS are started early; grown cool and they give you the advantage of several weeks start over the use of seeds. Prices on these are moderate as you will see. OUR SEEDS are all of the finest strains; the same as we use in our plant growing operations and the same as we supply to hundreds of professional florists and nurserymen throughout the country. They are ALL FLORIST QUALITY SEEDS

LEFT HAND price column is price of plants per dozen; RIGHT HAND column is the price of seeds per packet and our packets are most liberal in quantity, containing about twice the seeds of the usual retail packet of equal price.

VARIETY Plants per doz. Seeds AGERATUM-ALYSSUM-LILAC QUEEN: Lilac lavender. Excellent for borders.

LITTLE GEM: Pure white, about 4 ins. tall. (Carpet of Snow.)

VIOLET QUEEN: The most colorful. Rich violet. About 4 in. ,10

fine as winter house plants

ASTERS -PRINCESS: A NEW group in colors of which Aurora Golden Sheaf was the forerunner. Same tufted flower form as Sheaf. Anna — peach blossom; Bonnie — rose; Marsha — scarlet and .15 SUPER GIANT LOS ANGELES: Chrysanthemum type shell pink. .35 .10 HEART OF FRANCE: Rich dark red. Medium size. .35 .10 Calif. Giants: Large Chrysanthemum like flowers of largest size.
Plants 3 ft. tall. Blooms from late summer right up to frost. COLORS- Apple blossom, carmine rose, dark purple, deep rose, light blue, white and mixed. .35 .10 IMPROVED CREGO: Smaller than Calif. Giants but similar in flower form. Blooms much earlier. COLORS- Blue, dark violet, deep rose, light blue, shell pink, white and mixed. 35 .10 QUEEN OF THE MARKET: The earliest Aster. Flowers in early August producing many flowers of nice size. Plants are about 20 in. high. COLORS- Azure blue, dark blue, light blue scarlet, white and mixed. .10 GARDENIA FLOWERED MIXED: Finest double. Grand colors.25 .10 **BEGONIAS** — Fiberous Rooted. We have a fine stock of these this year and the price is very reasonable for this type of plant. They are fine for bedding in pro-tected, warm situations where they have half a days shade or they make ideal porchbox, hanging basket or pot plants. They are very

COLORS- Pure white, apple blossom, light pink, deep pink, scarlet,

Pink Calla Lily

These are a nice novelty. A bit smaller than white or yellow Calla but a rosy pink. Easy of culture. Price \$1.00 each; 3 for \$2.50 with culture sheet.

Croft Easter Lilies

Planting Stock for Fall Delivery

Croft Lilies have become tremendously successful along the Northern California, Oregon and Washington coast and returns on commercial plantings have been very high. Several growers have reported net returns of from \$5,000 to \$10,000 per acre and returns of several hundred dollars have been made on an area the size of

While commercial plantings old enough to be salable as bulbs for forcing are in areas near the coast, there are successful plantings at many scattered locations throughout the northwest and it seems there is a reasonable probability of successful culture almost anywhere west of the Cascade Mountains below 1500 foot elevation. Plantings at about 1200 foot elevation in the Illinois Valley here in S. Oregon look well as do those in the Willamette Valley and around Cottage Grove, Medford and Ashland Oregon. Progress is being made also here at Grants Pass. With a well drained, loamy soil of reasonable good fertility their culture should be found profitable in the terifory mentioned above. able in the teritory mentioned above.

Current prices on these bulbs as quoted in The Florists Review of April 12, 1945 range from \$700.00 per 1,000 for 7 to 8 inch circumference to \$1250.00 per 1,000 on 11 to 12 inch bulbs. The grower will receive about 70% of this figure from the jobber or he has the opportunity of trying to sell the stock himself. In view of the fact that the demand is easily ten times present supply the price level of this stock will remain good for several years; at least 4 or 5, and even when prices fall to 50% of present level with labor back more to normal they will still be very profitable.

We will publish much more complete data on these, their culture and sale and this will be supplied either at a small charge or free with the sale of planting stock. If you are interested please write us at once so we may know how many copies

For planting time (October till March) delivery we expect to have available up to 300,000 planting stock of this variety. These will be all clean, healthy, inspected stock of 1½ to 3 inch circumference grade and are the size that is most economical both in time and cost to plant. They will produce additional planting stock for replanting the fall of 1946 and 1947 and the fall of 1947, with good culture and care should give you a good commercially salable crop.

PRICE ON THESE WILL BE

\$2.50 per doz; \$20.00 per 100; \$195.00 per 1,000

On orders booked before August First. A deposit of 50%

Will be required at time booking is made.

IF interested in this kind of stock it will be best to contact us at once as we know there will not be enough to go around this year and prices may advance when harvest gets under way. All offers and sales will be made subject to crop and shipments will all be made in rotation in which order is booked.

How to reach Harrold's
